**U.S. Gas & Electric, Inc., is Recognized by *Inc. Magazine* as
the Second Fastest Growing Private Energy Marketer in America**

WHITE PLAINS, N.Y. – U.S. Gas & Electric, Inc. (“USG&E”), one of the leading energy marketers in the United States, was named by *Inc. Magazine* as the second fastest growing private energy marketer in America.

USG&E was also ranked by *Inc. Magazine* as 18th within the Energy Industry, 16th within South Florida, and 553rd among all privately held companies in the nation. “Our success is a true testament of the dedication and commitment of our employees, shareholders, lenders, vendors, and everyone else who has supported us over the years. Internally, from the front lines to the back office, everyone in our company is determined to provide our customers with the highest level of service and best value. Externally, our business partners are major contributors to the success of our organization and we recognize that they are a key reason for our success,” said Doug Marcille, Esq., CPA - Director, CEO, and President of USG&E.

This is the second year in a row that *Inc. Magazine* has recognized the success of USG&E. During 2009, the Company was ranked as 9th within the Energy Industry, 3rd within South Florida, and 203rd among all privately held companies in the nation. “USG&E was among many other successful energy marketers that were recognized by *Inc. Magazine*. This illustrates that consumers want a choice as to who they purchase their electricity and natural gas from, and it provides energy marketers with the opportunity to prosper regardless of the economic landscape”, explained Mr. Marcille. With a 3-year growth rate of 555% during 2010, the Company is on track to be recognized by *Inc. Magazine* again next year.
